Overlay Maker®

Create your own overlays for IntelliKeys®

These web pages are filled with examples of custom overlays for [IntelliKeys](#), all created with Overlay Maker. Overlay Maker is essential for anyone who wants to create their own overlays for IntelliKeys.

It's Here! Overlay Maker for Windows!

Overlay Maker works like a drawing program, as shown below. Simply draw keys on the computer screen. Add letters, phrases, mouse movements, even special IntelliKeys settings. Choose from any available font in any size and various styles. Add background colors and patterns. Use Overlay Maker to customize switch settings for your favorite switch program.

The IntelliTools Picture Library

Overlay Maker comes with the IntelliTools Picture Library of over 300 carefully selected, playful images. Use these pictures in color or black-and-white as you design overlays. (See [IntelliPics](#) for more Picture Library information.) You can also add pictures from clip art, digitized photos, Board-Maker or your own drawing program. Pictures snap into a key and automatically re-size to fit. Then add text above or below each picture. Print your overlay on any Mac-compatible printer - color or black-and-white. Comes with over 20 sample overlay files for communication, language arts, math, and more. Samples include disk files of the standard overlays for you to customize. Includes owner's manual and Quick Reference Card.

Overlay Maker for Windows

Now Windows users can enjoy the power of Overlay Maker for the Macintosh and more with Overlay Maker for Windows - the first in a growing line of Windows products for IntelliKeys.

Creating overlays has never been easier with special new features like:

Easy Mode - Choose from a menu of already designed overlay templates; make global changes to key shapes and font sizes.

On-line help - Tired of thumbing through manuals? The answers you need are at your fingertips.

More design options - Size keys without grid restrictions. YOU decide how big to make keys and where to place them.

Free pictures - Place graphics anywhere on the screen - inside keys...outside of keys ... in the background ... in the foreground - to create the design you want.

An enhanced palette of colors - Give your overlay that special look with an wider choice of background

colors.

With Overlay Maker for Windows you get more ... more colors, more choices, and more flexibility in designing your overlay.

Includes IntelliTools Picture Library.

Create an overlay in 4 easy steps

1. Design it

Draw your overlay on the screen, creating keys of any size and location. Type text and/or paste a picture on each key. Edit the key content (the characters that are typed when you press a key). Save the finished overlay. It's so easy!

(image of drawing an overlay)

2. Print it

Choose Print from the Overlay Maker file menu to print your overlay on any color or black-and-white printer. Trim the overlay and slide it into IntelliKeys. The Mac and Windows versions print the complete overlay; Apple version prints key outlines only.

(image of printing an overlay)

3. Send it

Choose Send from the Overlay Maker file menu to send the overlay information from the computer, through the cable, into the IntelliKeys Keyboard. IntelliKeys instantly re configures to match your custom overlay.

(image of sending an overlay to IntelliKeys)

4. Use it

Once IntelliKeys receives the overlay information and the printed overlay is in place, your custom overlay is ready to use with IntelliTalk, IntelliPics, ClickIt! or any software program. Use your overlay on any Mac, PC-compatible, or Apple II computer.

Overlay Maker Apple II (version 2.0)

Follow clear, concise menus to create overlays in just minutes. Choose from 20 pre-defined overlay layouts or create your own. Create special keys for disability access. Print out the key outlines and complete your overlay with marking pens. Use your custom overlay with any software program. Version 2.0 allows grouping of overlays before sending to IntelliKeys.

Overlay Maker Upgrades

The current versions of Overlay Maker are:

Overlay Maker Macintosh 2.2

Upgrade from 2.0 is \$20 (product code OM-M-UG0)

Upgrade from 2.1 is \$10 (product code OM-M-UG1)

Overlay Maker Apple 2.0

Upgrades for the Overlay Maker Apple are Free!

Version	Platform	Order #	Overlay Maker		
			Single Copy	Five Pac*	Multi-User Pricing*
