

Alternate Assignment (Can replace Assignment #6 or be used to earn additional points)

You will be provided with:

- A set of photos of 16 Significant, Living Americans
- Names and Information sheets on these Americans
- Student Pre/Post Test Sheets (2 page documents)
- One Participant Report Form

1. Please mark Martin Luther King's name off of the student pre/post test pages and remove photo # 8 (Ronald Reagan) from your photos. I found these errors after the pages went to the printer!
2. Put your name on the pre-tests and circle "Pre" at the top of the page.
3. Pass out the 2-page test to students. (If you do not test everyone please administer the test to at least 15 students.)
4. Hold up the pictures in the order numbered. Have students put the **number** of the photo in the first column right beside the name of the person in the photo. (Tell students that there is not to be a number 8 answer.)
5. After you have shown each of the photos and students have matched each with a name, have students remove the second page and read through the information about the Americans.
6. Next have student put the **letter** of the information that matches the name in the second column on the first page. (If they have torn the two pages apart, it will be easier for them to complete this match.)
7. Take up the pre-test, score and complete the pre-test sections (shaded columns) of the "Participant Report Form."
8. Post the photos with information about the person in the photo around your room or put the photos and corresponding information together and make it part of a "center" in your room. If you have time to go over the photos and talk about these people and their accomplishments please do so. At the very least, let students know that they will be questioned about these leaders again and that they should look over the information. If you would like to add people to this set, that is fine, but I only need report information on the group that I provide.
9. After you have talked with the students and/or given them adequate time to review the photos and Information, but **Before May 14th**, administer the post-test.
10. Complete the post-test part of the Participant Report Form.
11. Fax the completed Participant Report Form to **850-638-65109** Attention: **Brenda Helms**
