

Project 1— Paper Airplanes

Materials

- 3 sheets of HP Premium Inkjet Paper

Instructions

1. Choose which bird design you'd like to print, or print all three. Set aside to dry completely.
2. Place the sheet of paper design-side up.
3. Fold the paper in half along the dotted line.
4. Make two diagonal folds along the dotted lines so that the design elements are visible.
5. Make the final folds, bending down both wings.

Hints

- Hint: Just one staple at the bottom of your plane will help to steady it during flight.
