EXTRACURRICULAR PARTICIPATION AND FIELD TRIP MEDICAL INFORMATION RELEASE AUTHORIZATION

INTRODUCTION The privacy of medical records and information is protected and insured by new legislation entitled the Health Insurance Portability and Accountability Act (“HIPAA”). This law was developed to safeguard information about an individual’s medical status from improperly being shared, discussed or released without their knowledge. The law is totally inclusive and does not allow for the beneficial communication about medical conditions or status absent valid authorization.

CONCERN – When an individual, especially a minor, participates in an extracurricular activity/field trip, there is always potential for injury or illness that may limit or prohibit participation. In order to make good decisions about the participation status of an individual, sponsors, coaches, directors, and chaperones need information concerning the individual participant’s health status. Under the HIPAA regulations, that information may only be given by the parent or guardian of the minor participant (under 18) or the nonminor participant (18 or over). Medical providers including doctors, physical therapists, nurses, trainers, etc. may not directly discuss any medical condition of an extracurricular activity participant with the director of the activity without written consent from a parent or guardian or the adult participant.

REQUEST FOR CONSENT – Medical providers respect the right to privacy but also understand the need to communicate with activity directors about the participation status of individuals in their care. To accomplish this, a written consent form must be completed indicating the extent that this communication may occur. Three basic levels of consent are possible. These are **A. TOTAL CONSENT, B. NO CONSENT, C. LIMITED CONSENT**. This form is a request for a parent/guardian or adult participant to choose the level of consent desired. Included in the completion of this request form is the designation of what medical providers from whom medical information can be requested. There should be an understanding that total consent is still communication only **BETWEEN** those individuals who **NEED** to know the medical status of the participant. Since knowledge of certain medical information is necessary to determine the participation status and/ or the limitations of that participation (such as preseason medical screening), failure to release such information to the authorized sponsoring individual may disqualify the student from participating in extracurricular activities.

If accepted as a representative, I agree to follow the rules of my school and FHSAA and to abide by their decisions. I know that athletic participation is a privilege. I know of the risks involved in athletic participation, understand that serious injury, including the potential for a concussion, and even death, is possible in such participation, and choose to accept such risks. I voluntarily accept any and all responsibility for my own safety and welfare while participating in athletics, with full understanding of the risks involved. Should I be 18 years of age or older, or should I be emancipated from my parent(s)/guardian(s), I hereby release and hold harmless my school, the schools against which it competes, the school district, the contest officials and FHSAA of any and all responsibility and liability for any injury or claim resulting from such athletic participation and agree to take no legal action against FHSAA because of any accident or mishap involving my athletic participation. I hereby authorize the use or disclosure of my individually identifiable health information should treatment for illness or injury become necessary. I hereby grant to FHSAA the right to review all records relevant to my athletic eligibility including, but not limited to, my records relating to enrollment and attendance, academic standing, age, discipline, finances, residence and physical fitness.
